

DEPARTMENT OF BOTANY
GOVT. DEGREE COLLEGE, DRASS

- The Department of Botany was established in the year 2021. Our vision is continued well-being of the peoples through excellence in studies, exploration, conservation and sustainable utilization of the plant world.
- The Department mission is to foster an environment of excellence by attracting and supporting the outstanding students, faculty and staff needed to sustain our vision.
- The Department aim is to instigate quality learning and teaching process in the field of Botany and to make students familiarize with Botanical concepts, terms and phenomenon by making use of practical teachings and encourage students to continue higher studies and research in the field of Botany.
- Our future plan is to start certificate courses in mushroom technology, establishment of ethnobotanical museum and establishment of herbal and botanical gardens with local flora.
